

Game Instructions:

- Players pick their direction after hearing our speech at beginning
- Each turn, players move one space forward then pick a card
- Players pick a card each turn and follow as it says, reading the story out loud
- Once players land near the houses, they receive their potion ingredients after hearing the stories
- Players continue on game until reaching first RxN point
 - Players pipette chemicals into cupric nitrate to create colored precipitates
- Players move onto next level (The River of Life) and continue using cards to play game
 - When reaching house on level two players choose between copper and magnesium to create battery at end of level
 - Players must choose both to complete RxN, 2+ players required
 - We explain purpose of chemicals in a story format
- Players continue on game till reaching final RxN point
 - Players Give us materials so we can do RxN
 - We complete RxN to light LED and players move to final level
- On final level players are to experience the flame viking funeral style
 - Fire must be kept away from curious hands
- People observe the fire and game is over
- Reset game for next group of people
